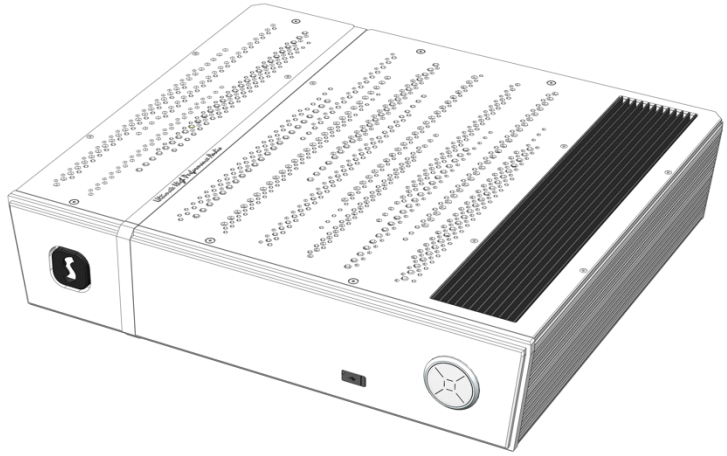
SOtM exhibits at HIGHEND 2024

For purchasing and further information, please contact:
May Park,
marketing@sotm-audio.com

Reveal the SOtM's new generation network music server & player, sMS-2000 !

The sMS-2000 is built based on SOtM's very reputable qualified PC audio components, sMB-Q370, tX-USBx10G and sNI-1G, these main sources are all clocked by the superior performance of the sCLK-EX.



- Key features

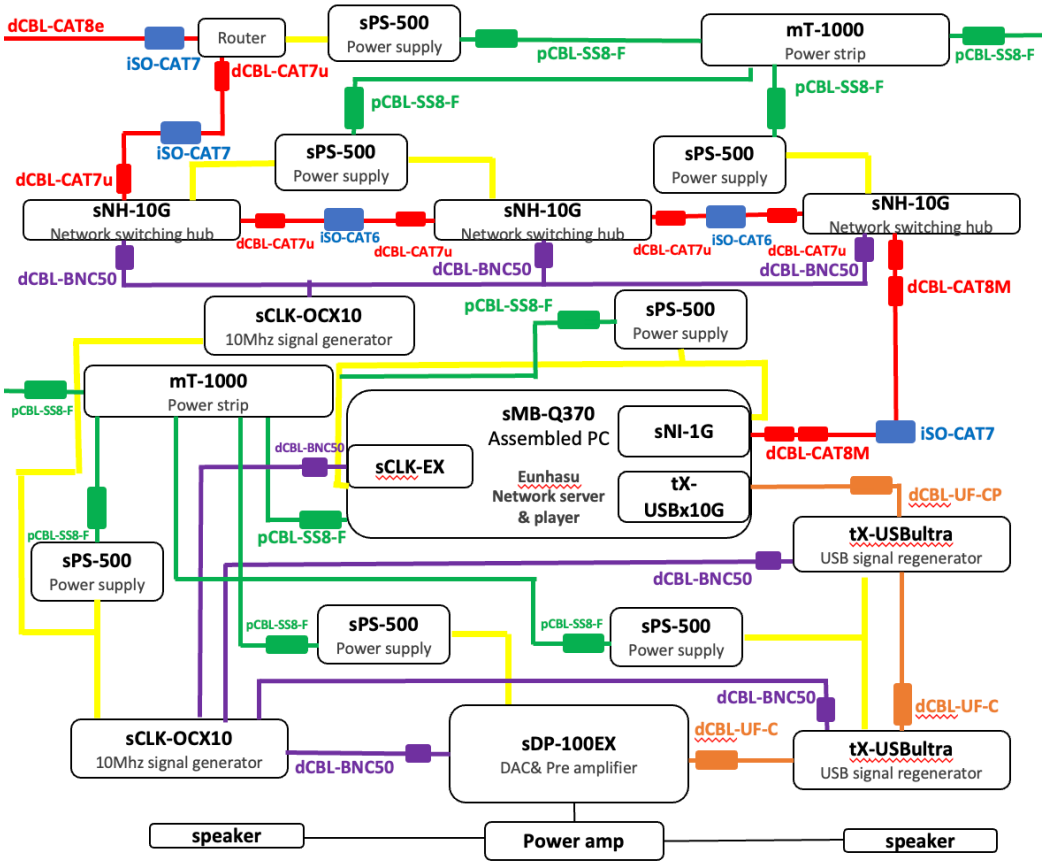
* Easy Web GUI
* Roon Server
* MinimServer
* DLNA audio renderer, OpenHome support
* MPD(Music Player Daemon)
* LMS(Logitech Media Server), Squeezelite
* HQPlayer Network Audio Adapter
* Shairport
* Multi-zone network playback

Since after released the sMB-Q370, there have been a lot of demands to fill up the vacancy of the server device, and it's the time to show it up finally.

In HighEnd2024, we will run two digital front end at ***Atrium 4.2 room F217 with an incredible team of Egglestonworks, J.Sikora Turntables Doshi Audio and SOtM***. And the other system will be demoed at **A4.2, F202**(Absolare and Rockport technologies).

Please visit us for further fun and joy. SOtM's all products certainly tell what the real value of audio products should be.

SOtM Main system for High End Munich 2024



SOtM will become the most important partner in your music life.
